

Pavement

- General Notes:
1. Finish to be broomed only in direction shown.
 2. All joints on sidewalks and drive approaches shall be cleaned and edged with a 1/2" radius edger. Saw cutting in lieu of tooled joints must be approved in advance by City Engineer.
 3. Maximum width for residential approach is 18' at sidewalk.
 4. On new construction or complete reconstruction, tool joint wings only. If partial replacement and existing approach has dog legs, match existing.
 5. Expansion material must be secured in place at time of inspection.

Expansion Material, Tool Joints and Finish for Drive Approach
